Shawna – doc. # 1224705 is very helpful. The other doc. I already have. I looked at the index and I'm only looking for docs specific to OU2. There are 3 docs that I am interested in:

- 1022530
- 1085393
- 2047113

Could you email those docs to me? Thanks you.

Hi Paula,

I could not come up with an exact match for your document request. I found two documents that fit at least one of the criteria you gave me:

1224705 – is correspondence from Susan but is not in 2008 (it's from 2006) I found only one other document with Susan as the author from 2000. Let me know if you would like to see it and I will be happy to send it to you.

1202420 – Has the term “chemicals of concern” and is from 2008 but is not authored by Susan.

For your convenience I also attached an index of documents that contain “chemicals of concern” in the text of the document. The timeframe varies widely as the only one from 2008 is attached. Please let me know if you would like to see any of the documents and I will be happy to send them to you.

If you can think of any other search criteria, please let me know and I will be happy to continue the search. Thank you!
